RE: Political Obligations to the United States (General Government)

Dear Sirs,

I recently learned that Title 5 of the United States Code identifies 'Federal Personnel' as any 'individual entitled to receive immediate or deferred retirement benefits.' I also learned that the application for a Social Security account contains a political pledge that facilitates such a designation.

The purpose of this letter is to request the GAO research and disclose any and all voluntary political obligations I have entered into where I have an obligation to the United States Federal Government beyond what is due any person born within the boundaries as stated in the 1849 Constitution of the State of California.

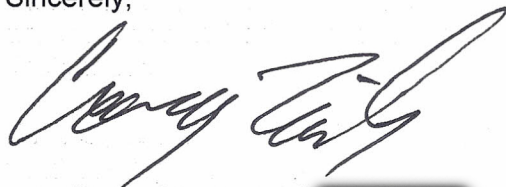

This letter also requests that for each political obligation associated with my name, the proper method to terminate said obligation be disclosed.

For research purposes, please find below pertinent information:

Corey Brandon Eib
DOB - 6-21-1971
SS# 547-69-2774
Passport # 503436615

Thank you for your assistance, I look forward to your prompt reply.

Sincerely,

enc. Scan of passport # 503436615
